

AN INVITATION: Celebrating the 20th Anniversary of Fisher Pond

On Saturday evening July 7, 2018, the Vashon-Maury Island Land Trust will commemorate the 20th anniversary of Bill Fisher's gift of 90 acres and a pond to the people and wildlife of Vashon Island. Bill made that gift to the Vashon Land Trust on July 8, 1998 knowing it was the only way his treasured property would be permanently protected and cared for.

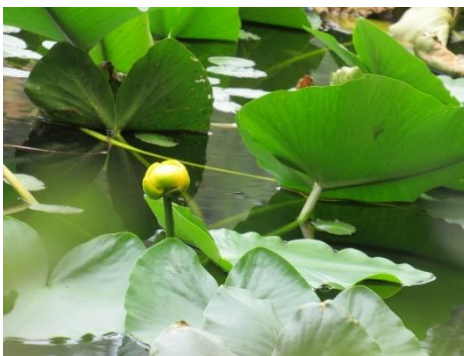

Since then, Fisher Pond has become a vital part of what many of us treasure about our island. It's hard to imagine Vashon without Fisher Pond and the trails around it.

In celebration, the Land Trust will gather with 300 guests at OSpace to celebrate Fisher Pond's place in our community and raise funds to ensure that it and other places like it on our islands are protected, cared for, and made available to the public and future generations.

We are inviting island businesses to participate in this celebration as event sponsors and guests. Like Fisher Pond, you are vital to this community too.

Together, sponsors will underwrite the costs of the event and ensure that all funds raised that evening go directly to support the Trust's ongoing efforts to preserve and protect the land and water we love, today and for generations to come.

Sign on now as a sponsor and we will showcase your generosity before, during, and after the event.
